

# Making India a Healthy Place to Work

**Need for Action - Workplace Wellness:** Opportunity to be a part of the team committed to improving Workplace Health and Wellness!

The global economy loses about US\$ 1 trillion per year in productivity due to depression and anxiety

- WHO

An estimated 56 million Indians suffer from depression, and 38 million from anxiety disorders

- WHO

4 out of 10 employees in the private sector suffer from depression or general anxiety disorder

- ASSOCHAM

Our research shows that a lot of the above can be prevented by creating emotionally and psychologically healthy workplaces. Employees at such workplaces report significantly higher Brand Advocacy, Intent to stay, Discretionary Effort, and Motivation as compared to other workplaces.

Great Place to Work® has launched the **ONLY** public study in the country to identify 'India's Best workplaces in Health and Wellness.' This study aims to provide organizations with a framework to create an effective wellness program that fosters a healthy and high-performance workplace culture. [Click here to know more.](#)

**You have an opportunity to be a part of this team and contribute to Making India a Healthy Place to Work!**
